INTERNATIONAL RESEARCH AND EDUCATIONAL FORUM

EURASIA 2022: the social and humanitarian
space in the era of globalization
and digitalization

Dear friends!

The International Research and Educational Forum “Eurasia 2022: The Social and Humanitarian Space in the Era of Globalization and Digitalization” is a very important event in the life of our region. Today, in this international communication platform we continue to develop the integrated social and humanitarian digital space of Eurasia, broaden the multilateral cooperation in the fields of education, culture, science and technology, and ensure the leadership of the South Ural region as a territory uniting Europe and Asia.

This Forum allows us to stimulate the dialogue regarding the issues of Eurasian integration, discuss all aspects of the strategic priorities of development of the education system with consideration to modern requirements for the quality of specialists training, and promote the importance of scientific research in the process of interregional and international interaction. The Forum will undoubtedly facilitate the development of new social and economic ties in the territory of the South Urals, broad cultural interaction and cooperation between the East and the West, and will significantly contribute to the understanding of Eurasian identity and the experience of interaction between countries and peoples in the social and humanitarian space of Eurasia in the era of globalization and digitalization.

I wish you successful and fruitful work at this Forum.

Alexey Texler
Governor of the Chelyabinsk Region
